Profile

Frontend Engineer with 5+ years of experience building scalable SaaS products using React, Next.js, TypeScript, and modern frontend architectures. Experienced in delivering high-performance web applications, collaborating across product teams, and developing automation platforms powered by Puppeteer and NestJS. Passionate about writing clean, maintainable code and leveraging AI-assisted development tools to accelerate delivery and improve code quality.

Work Experience

2024/05 – 2026/03
London, UK

Software Developer (Remote)

The Access Group 🌐

- Engineered a LinkedIn automation platform using **Puppeteer** and **BullMQ**, processing **500+ automated tasks daily** with **99.5% reliability**, directly supporting sales team outreach efforts.
- Developed and monitored **NestJS** backend APIs, reducing average data processing latency by **30%** and improving system observability.
- Led the design and implementation of a comprehensive frontend dashboard with **Next.js** and **TypeScript**, serving **50+ internal users** and centralizing automation management, CRM integrations (Vincere, Bullhorn), and role-based access control.
- Built a **Chrome extension** for LinkedIn profile scraping that dynamically managed selectors from a database, increasing data extraction accuracy by **25%** and enriching profile data for the sales team.

2022/11 – 2024/05
London, UK

Frontend Developer (Remote)

Elay 🌐

- Architected and executed the RPA frontend using **Next.js**, contributing to **25% faster project delivery** and enhancing operational efficiency
- Designed an intuitive, **React Flow-based** interface to visualize complex data flows and connections, reducing the user learning curve by **40%** and improving task completion rates
- Received consistent positive feedback **from** users and stakeholders for delivering a high-performance dashboard that improved usability and **streamlined** workflow management

2021/06 – 2023/04
Mashhad, Iran

Frontend Developer (Part-Time)

Agroyaar 🌐

- **Led a frontend team of 3 engineers**, mentoring them on best practices and driving a **15% reduction** in UI-related bug reports through improved code quality and review processes
- Collaborated with sales and analysis teams to design **farmer-centric** solutions, focusing on usability for non-technical users, which increased **platform adoption by 20%**

- Transformed complex agricultural data into clear, interactive interfaces, enabling farmers to effectively connect with experts for land analysis and monitoring

2022/01 – 2022/11
Iran, Mashhad

Frontend Developer

Metanext 

- Contributed to an integrated platform unifying HR, CRM, Content Management, and Accounting systems, serving **1,000+ users**
- Developed creative frontend solutions that resolved complex process challenges, improving user experience and reducing support tickets by **15%**

Skills

Frontend Technologies

React.js, Next.js, TypeScript, JavaScript (ES6+),
Redux, React Query, Ant Design, Tailwind CSS

Cloud & Monitoring

Google Cloud Platform (GCP), Metabase

Backend & Automation

NestJS, Puppeteer, BullMQ, Chrome Extensions

Tools & Practices

Git, GitHub, Jira, Unit & Integration Testing,
Agile, CI/CD

Education

Mashhad, Iran

Electrical Engineering

Imam Reza International University
